Dear Martyn,

The South Australian Chamber of Mines and Energy (SACOME) is the peak industry body representing companies with interests in the South Australian minerals, energy, extractive, oil and gas sectors and associated service providers.

Cement Concrete and Aggregates Australia (CCAA) has made a detailed submission to the Explosives Bill 2021 (the Bill) consultation and SACOME supports this submission.

SACOME recognises the Bill reflects nationally agreed policy proposals to address the inconsistencies industry is experiencing when operating across different jurisdictions. As a matter of principle, SACOME supports harmonisation of legislative frameworks that reduce time and cost pressures for the resources sector.

SACOME understands that member companies have expressed a strong desire to provide input to the consultation process on the associated regulations and SACOME's support for the Bill is predicated on further consultation in this regard.

SACOME thanks SafeWork SA for the opportunity to provide feedback to the Bill and remains committed to ongoing dialogue with SafeWork SA on these matters.

Kind regards
