# SACOME Code of Conduct

Rebecca Knol, CEO SACOME & Matt Reed, Chief Operating Officer, SIMEC Mining.

## SIMEC Mining leads the way with commitment to sustainable development in South Australia

First company signs new Code of Conduct for the SA resources industry

### Introduction to the *Enduring Value* framework

#### Introduction

The South Australian Chamber of Mines and Energy (SACOME) has launched a Code of Conduct to drive continuous improvement in the South Australian resources sector.

The voluntary Code has been adopted from the Minerals Council of Australia's *Enduring Value Framework* for sustainable development and offers a framework for mining, oil and gas companies to manage performance and demonstrate commitment to sustainable development.

#### Background to *Enduring Value*

The Minerals Council of Australia developed *Enduring Value – The Australian Minerals Industry Framework for Sustainable Development* in 2005. *Enduring Value* builds on the Australian Minerals Industry Code for Environmental Management – the platform for industry's continual improvement in managing environmental issues since its introduction in 1996. The current 2015 framework is the result of a wide-ranging review and ensures that *Enduring Value* remains relevant to resource developments and operations and the expectations of stakeholders.
